good and well being of the class, placing the need of others before his. He hardly gets into fights and will do anything to maintain peace and sanity among the Nobles. He has an unusual obsession with football and knows the history and origin of half; the premier league. What are more surprising are his Mathematical skills, you could actually call him a human calculator.

22. Ovberedjo Ejirioghene Christopher

Introducing the boss, and the brains, Christopher. The fountain of knowledge, that's what he is, honestly there isn't anything I can point out that he's bad at. And apart from being exceptionally smart, with a high intellect, he also has amazing social skills and a surprisingly beautiful singing voice. There's nothing Ejiro loves more on earth than Youtube, he literally has grown a sentimental attachment to it.

23. Umuwe Onaefe Godswill

The last thing you would want to do is get in an argument with this guy, you will not hear the end of it. He's the one Noble whose presence always gets everyone rolling on their backs in laughter. He's also the easiest to approach and kind of the funniest. Godswill never really intends to make us laugh, it just happens. If only he wasn't constantly daydreaming, he could be so much more.

to meet him yourself to see how much he meets the hype. Joshua is not only funny, loud and one of the craziest nobles you'll meet, he's also one of the smartest. I'd love to count his skills and talents but they so many. He's known for always having the latest tea and he's always ready to spill, there's not a thing that goes on that Joshua doesn't know about. You might as well call him, 'the eye above Good Shepherd'. His intelligence and sense of decorum is sincerely very amazing, but he can sometimes leave emotional scars with the things he says.

11. Iroko Victory Oghenemaro

Where do I start?, there's too many good qualities to begin with. Victory is one of the most harmonious, peaceful and chill individuals amongst the nobles. Even with that you still don't make the mistake of messing with him. He's really spiritual and a very religious person. He was born on the 7th of August and his sign Leo. But all these don't even make up his best quality, which is how he is always thinking about the bigger things, making money.

12. Olisemeka Iwaka Kingsley

I'm starting to doubt if I might ever be able to finish writing about him. The one and only head of the nobles. I find it easy to write about him as he is one of the most respected students of Good Shepherd. As hard as it is to admit, I actually almost look up to him. His charisma is one that cannot be competed with. When you think about it he's almost a perfect individual and that's rare to see. His only shortcoming is his attitude and relationship problems.

13. Mowoe Epiphany Oghenevwegba

I cannot stop smiling right now. It's literally what I love most about Epiphany. He always lightens the mood no matter how bad the situation is. His positive vibe is what attracts people to him and his ever present smile is just unreasonably contagious. His friendly to everyone and anyone, but meeting on the grounds of CODM, he'll show no mercy. It's almost like saying the word "NICE" came to like as a person.

14. Oboh Victory Oghenekparobo

His Highness, King of Ogbokodo. What's funny about him is the fact that he thinks he's funny. Trust me, he's not. His birthday is on the second of December, and he's a Pisces. Victory's the kind of person that sits back and chills, has no stress but when he feels like doing something, he puts his whole heart into it. Of all the nobles, he's the fastest learner in Mathematics, playing of instruments, and hand skills. The only thing he can't seem to learn is how to wake up early.

15. Odobor Goodluck Chikwadam

The only person I trust more than myself and hold in high esteem. Meet Goodluck, the most disciplined, determined and dedicated member of the class of 2024. Constantly filling the air with laughter. His crazy expressions never cease to crack our ribs. Although he can be a bit stern and annoying sometimes, he is a really nice person. Just don't ever get on his bad side and you might just be asking for an unending war.

Technically, he's both discipline and funny; a perfect mixture.

16. Ogbalor Ajiri Nathaniel

The Landlord himself, the Emperor of his Empire. I present to you, Nathan. A potential strategist, that's the best way to define him and apart from being theoretically skeptical, he's also very good at adapting to every situation he finds himself, almost like a scavenger. Some people might say he's a bit absent minded, but truth be told, he doesn't just want to be stressed. I am a big fan of his; his mere presence will always get you laughing.

17. Okafor Gerald Obianuju

The modern day Da Vinci, the class artist. Gerald is known for his creativity and extraordinary artistic skills. He is one of the nobles with a sense of humour that is out of this world. Knowing him, he's always coming up with some weird jokes or crazy idea. And his obsession with tik-tok is a bit over the top but very amusing. There's not a single upcoming tik-toker he doesn't know about. It's almost like some kind of social media dictionary.

18. Okosije Iruoghene Marvellous

I introduce to you the one and only Iruoghene. The bravest noble in the class of 2024. What is most surprising is even with his boldness, he still manages to be calm when in the midst of the Nobles. Iruoghene is a really funny and amusing person, but sometimes his jokes can be very toxic and leave scars on the emotions of others. Not that he means to hurt or belittle anyone, but it's just his nature, he can't help it.

19. Okperi-Lucky Rich Oerome

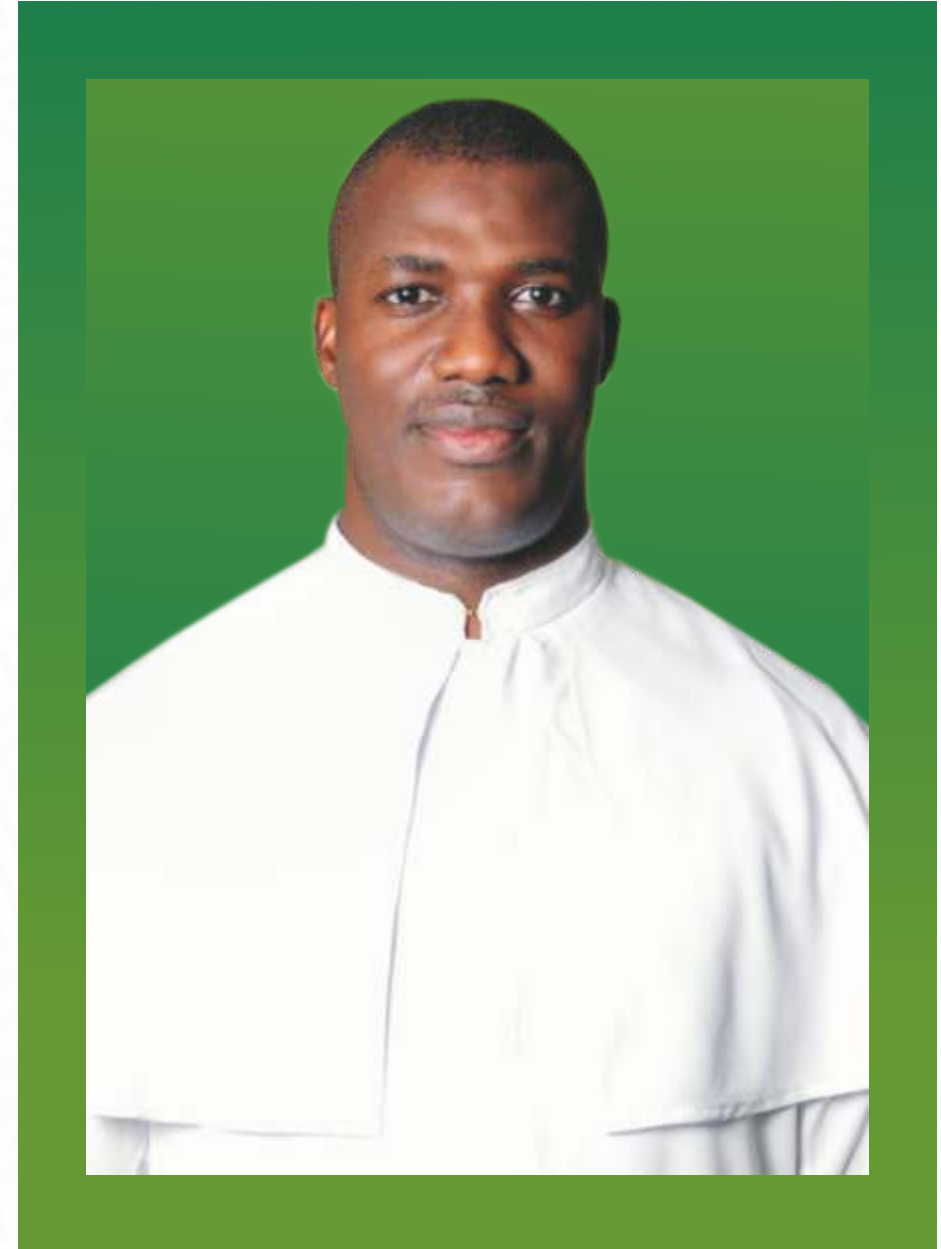

I'm not going to lie, Rich is the most annoying person yet also the most amazing. At a glance, you see a disastrous, troublesome and monstrous teenager but if you look deeper, you would know he's the most caring, soft hearted and friendly person there is. With the people he loves, it's almost like he's a whole different person, with a way more delicate personality. I admire the fact that even with his multiple problems; he manages to remain strong and fearless. I know I'm going to regret saying this, but there aren't many people out there who can do the things Rich has done, not even me. In summary, he's just the most peculiar Noble you'll ever come across.

20. Orino Oghenewoma Anderson

I remember meeting him for the first time and disliking how much of a nuisance he was, but boy was I wrong. Believe it or not Orino has had an impact on the lives of every single Noble. My advice to you is to really get to know him for who he is, to see how much of a caring, God-fearing and nice person he is. Orino is honestly one of my favourite characters of the class of 2024, the most daring of them all. If only he wasn't constantly misunderstood, you would actually notice.

21. Osondu Ferguson Akpevweoghene

One word; respectful. I honestly don't know how a person can be so nice; he's constantly rooting for the

MEET THE NOBLES

1. Akpebe Jerry Oghenemaro

The literal human machine, that's who Jerry is. Born on March 19th. Jerry is a tall, athletic and strong-willed person. He is extremely committed and cares a lot about the people around him, although people can sometimes think that he is careless, he isn't, he is just not the person to give a damn about what you think about him. My advice to you is, don't ever get on his bad side.

2. Akpoghiran Kelly Oghenefejiro

Music, movies, animes series. If there is anything you think you know, Kelly knows more. Kelly brought into planet earth on November 22nd is a knowledgeable and social young man into a family of only males and even with that, he is not as rigid as you might think. Although he can be very annoying at times, he can also be very funny too. One of his shortcoming is he is really shy, especially with people he does not know.

3. Akudo Chika Emmanuel

A man of very few words, yet heard by so many people. Chika's date of birth is 24th December and his zodiac sign is Capricorn. As innocent as he might look, he is smarter than you can comprehend. He actually has a plain sense of humor and ordinary personality. You might say his words are ruthless, but he is actually just really blunt and doesn't realize he's being mean.

4. Angos Dide Victo Eyerinmene

What you always see isn't what is always there. That's the thing about Angos, you shouldn't judge him until you get to know him. On the surface, he presents himself as a crazy, carefree, funny and troublesome individual but on the inside, he is warm, kind, smart, and fun to be with. He's the birthday on October 16th of every year and has a really sanguine kind of personality. Even with all this, there's one problem he has..... He complains about almost everything.

5. Demisi Paul Oghenerunor

The most unique of the Nobles, Demesi Paul. Given life on the 11th of September. He is one of the most committed and calculated person you could ever meet. One of the most relevant things you'd notice about him is, he isn't a people person. He is reserved and self dependent and prefers to do his things on his own. But when he wants to have fun, he's going to do it when no one is watching. Paul has a delicate mind,

but out in the open, he is the strangest person there is.

6. Diaso Ejiro Alexander

There is a lot of words you can use to describe Diaso but one of them is the heart of the Nobles. I mean chill, you have got to meet him; creative, dazzling, audacious, vanilla essence, the list is so long you'd be surprised the build up of his personality. His birthday is August 4th, his Zodiac sign is Leo and temperament melancholic. He is a really nice and joyful person, but has a constant practice of verbally lashing people for fun. You could say he is the most mysterious of the Nobles, yet the most unforgettable.

7. Duku Uvieoghene Anthony

Ladies and gentlemen, meet Anthony, the most hyperactive of the Nobles. You'd actually be surprised how he manages to be so energetic 24/7 without taking a whole tank of steroids. He is known for having a steady vibe and you can never have a dull moment with him around. Just one tiny fall out, he can be a bit too oscenstacious sometimes and pretty sure he doesn't notice it himself.

8. Elvis-Edevbie Brohie Excel

Introducing the noble with the strangest laugh, Elvis. The way he smiles and reacts actually makes up 70% of his personality. His thought is always funnier than the joke, no doubt, and you will always catch him smiling at every point in time. Just like his constant emotional deflections, his personality is always strange. You can never understand him no matter how hard you try and its actually one of the things that makes him stand out.

9. Godstime Chigozie Victor Raymond

So loud, that's the first thing you'd notice about him. Chigozie is disciplined, religious, dedicated, committed and everything in between. He's supportive of everything positive and has a very strong passion for football. He's welcoming and supportive of everyone he meets, and pretty much one of the most responsible nobles. Personally, I just wish he'd let me sleep in peace at night and stop singing almost every single time ha has the opportunity.

10. Idiefefa Joshua Oghenevwegba

ABOUT THE NOBLES

BY: THE ECOE'S (EPIPHANY, CHIGOZIE, OLISE & ELVIS)

THE SCIENCE BOYS

Yes, we were quiet, reserved but there had to be a balance somewhere. We had our own ways of doing our own things. At least if we did something bad and not pleasant the "Art Boys" would be blamed for it. There had to be a reason for us being quiet as every thought and here below you see it.

- Jerry** who is always playing table tennis
- Kelly** who is always talking about anime
- Chika** who is always gisting
- Angos** who is always complaining
- Paul** who was always quiet and calm
- Diaso** who was always writing nice stories
- Duku** who was always dancing
- Joshua** who knows everything in the school without being told
- Iroro** who was always cleaning his mouth while eating
- Obob** who was always cracking boring jokes
- Odobor** who was always ends his arguments with "BEM"
- Ogbalor** who was always competing with Kelly for anime
- Gerald** who was always complaining about his food not being sweet
- Okosije** who was always insulting
- Rich** who was always eating beans
- Orino** who was always changing people's name to something else
- Ferguson** who was always talking about Viva Garnacho
- Ovberejo** who was always sleeping
- Umuwe** who was always arguing between Cole Palmer and Erling Haaland

THE ART BOYS (ECOE'S)

It was always like a cruise for us, we were never like the science boys. They seemed so reserved, quiet and they read a lot unlike the Art Students who preferred to do what they like. They never complain of the science boys instead, they created a name for themselves which is the "ECOE'S" and in the art the case was different. In the Art you will see;

- Epiphany** who was always laughing to an unknown joke
- Chigozie** who was always making his own songs and who cannot do without playing football or kicking something a day and at the same time looking for trouble and joking.
- Olise** who was always playing drum for Chigozie and listening to him singing, as well as always reading.
- Elvis** who was always singing Juicewurld's songs at all times even when we want him to stop singing.

Congrats to the Nobles

GRADUATION/VALEDICTORY SPEECH

FROM THE PRINCIPAL DESK – REV FR. DR. RAPHAEL A. AYORO

Today we are gathered with gratitude in our hearts to God for his mercies and favors that has been lavished upon our school community these past years. During this ceremony we shall be recognizing the efforts of some of our students who have distinguished themselves in different areas of their school life. We shall specially also recognize and celebrate our class of 2024 who are formally graduating from secondary school today after their six years of intense training and formation.

Secondary school education is a very important level of education. It is the second in the tripod of education starting with the primary, secondary and tertiary stages in ascending order of magnitude.

Education is an important instrument for promoting economic growth and development in the country. It plays a vital role in building human capabilities and accelerates economic growth through knowledge, skills and creative strength of society. A lack of access to education is a key constraint to the development of a country, a situation which can temper development at both the individual and societal level (Sifuna, 2016). Education is a very important and vital tool in anyone's life. It is the key to success in the future and the door that opens up several opportunities in life.

During secondary education, students develop critical thinking skills, engage in more complex problem solving and explore various subjects. This broad-based education equips students with a well-rounded understanding of the world and prepares them for future academic or career pursuits. This stage sets the foundation for the individual as he steps into the higher institution. Building a good structure requires a very solid foundation. This is what Good Shepherd Catholic Boys' Secondary School offers; a foundation that will enable any student aspire and build any edifice in life. As an institution, we have held on tenaciously to these practices, no wonder our students continue to excel within internal and external examinations. I wish to specially congratulate the class of 2024 for their brilliant performance at the just concluded Joint Admission and Matriculation Board (JAMB) examination even though the examination was considered one of the poorest nationwide, our students were able to

distinguish themselves by their brilliant results.

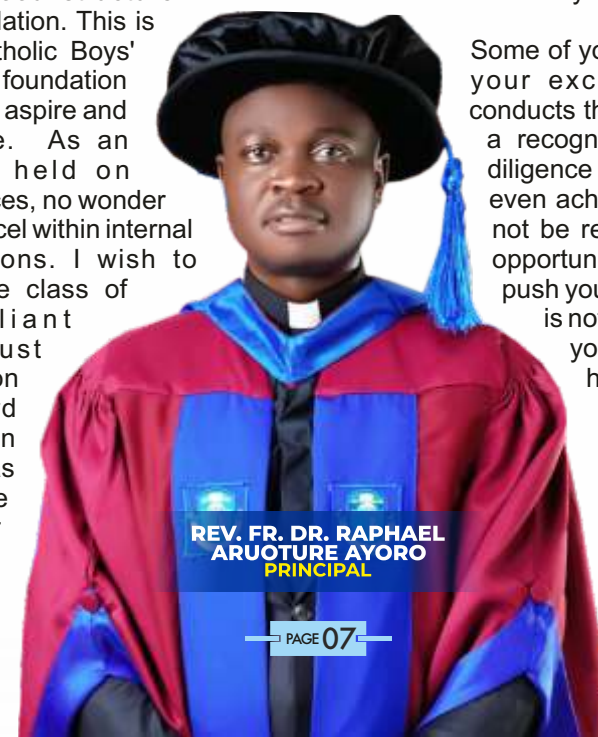

All of these are possible today because of the unique system and structure of the Good Shepherd school. At this point, I want to respectfully appreciate all our members of staff, whose dedication, devotion and hard work continue to account for our success. We thank you. You are indeed the best. May God continue to bless and reward your efforts in Jesus name. Amen. I appreciate very specially the parents of our students for choosing Good Shepherd school for your children. You have made huge sacrifices of your resources because you want the best for your children. We are grateful to God because your sacrifice have yielded good results. Your children have excelled not only academically but also morally and spiritually.

Class of 2024, we are proud to present you to the society because we can attest to your good qualities. Please as you proceed to your different higher institutions of learning, do not forget all the wonderful formation you have received from Good Shepherd. Be good ambassadors of our noble institution. As Christ the Good shepherd himself teaches us "let your light so shine before men, that they may see your good works and glorify your father in heaven"(Matt.5:16).

Esteemed students, I congratulate you all as well for the successful completion of this academic session. I am very proud of the wonderful character that most of you demonstrated this session, it is a sure sign that you are growing positively. Please keep it up. Today, your older brothers are graduating; tomorrow it will be your turn. Life is in stages, keep working hard. Hard work truly pays. "All hard work brings a profit but mere talk leads only to poverty" (Prov.14: 23).

Some of you will be receiving awards for your excellent performances and conducts this session. These awards are a recognition of your hard work and diligence and a motivation for you to even achieve more. For those who will not be recognized however, this is an opportunity and a challenge for you to push yourself higher. Remember, there is nothing you cannot achieve when you believe in yourself and work hard at it.

On behalf of our proprietor and Bishop, Most Rev. Dr. Anthony O. Ewherido, I congratulate all of you and I wish you the very best. God bless you.
